

Update to Pro/ENGINEER Wildfire 5.0 From Wildfire 3.0

Description Pro/ENGINEER Wildfire 5.0 is a significant software release that contains hundreds of enhancements, new functionality and major interface changes to widely used areas within Wildfire. This two day course will throw plenty of “fuel” on the Wildfire and re-ignite your Pro/ENGINEER implementation.

Topics The following topics are included in this training manual:

- User Interface Changes
- Sketcher Enhancements
- Part Modeling Enhancements
- Sheetmetal Enhancements
- Surface Modeling Enhancements
- Assembly Modeling Enhancements
- Drawing Mode Enhancements

Audience This course is intended for users that are currently working with Pro/ENGINEER Wildfire 3.0.

Format The training material has been developed following the traditional “lecture/exercise” format. Each chapter contains detailed explanations of new and enhanced functionality. Multiple hands-on exercises follow each lecture to provide a structured method of reinforcement and retention.

Duration 2 Days
